FUTURE GRADS

ABOUT THE PROGRAM

Boys & Girls Club's Future Grads program supports students to and through college graduation. Our students receive counseling for applications, financial aid forms, and college selection. They also develop social-emotional skills, including how to ask for help, access resources, and build support networks. The program begins in the summer before 10th grade through college graduation.

WHAT MAKES US UNIQUE

- Post-secondary support to and through graduation
- **No eligibility criteria to be part of the program**
- Financial Literacy help for families/caregivers
- Bilingual support

Graduation & Beyond

Once in college, Future Grads students continue to receive individualized coaching through graduation.

Going Further

Future Grads equips students with the support they need to become first-generation graduates of four-year colleges by utilizing key support features like **bilingual parent sessions** (Spanish & English), and transportation support.

Educational Equity

Unlike other college access programs that only accept high-achieving students, **Future Grads is open to any student** at our partner high schools in Morgan Hill.
