Boys & Girls Clubs of Silicon Valley

Annual Report 2023

40 Locations | San Jose | Morgan Hill | Gilroy | Hollister

Volunteer

We offer a wide range of programs and services with volunteer opportunities to match your passion, skills, and availability.

Donate

Join the community that's helping kids soar through every age and stage. Donate today at www.bgclub.org/give and make a life-changing difference for thousands of young people in Santa Clara County.

Ways To Give

Collect supplies for any of our annual drives: back-to-school, books, and toys; provide in-kind goods and services for our kids or our Clubs.

To discuss other ways you can make an impact on our kids, our Clubs, and the communities we serve, please contact Machellocsin at machelle.locsin@bgclub.org or call (408) 890-2918.

(408) 957-9685 | bgclub.org

Our Club family is united under one mission:

To inspire and empower all young people, especially those who need us most, to realize their full potential as productive, responsible, and caring adults.

Friends of BGCSV,

This past year has been nothing short of transformative and we're excited to share BGCSV's 2023 Annual Report, reflecting on a year marked by growth. The collective efforts of dedicated supporters and partners have propelled unprecedented expansion in services for children in need, achieving milestones unmatched in our 80-year history.

While we take pride in our progress, we recognize the magnitude of the need that remains across Silicon Valley to equip our youth with the tools and opportunities they need to thrive. Your steadfast support has been instrumental in enabling us to deliver programs that not only foster academic achievement but also promote healthy lifestyles and cultivate leadership skills among the young individuals we serve. By investing in their potential, we're nurturing future innovators, leaders, and community contributors who will shape the trajectory of Silicon Valley and beyond.

We extend our deepest gratitude for your unwavering commitment and generosity in advancing our mission. Your contributions have been invaluable in our journey to dramatically enhance programs serving college and career readiness, and we step into 2024 with renewed determination.

Our mission remains resolute: to positively impact the lives of youth, offering them opportunities to flourish and succeed. Your continued support is paramount as we seek to create lasting change for the youth in our community who need us most. We deeply appreciate each and every one of you and look forward to continuing this worthy and needed work together.

Challenges Facing Our Community

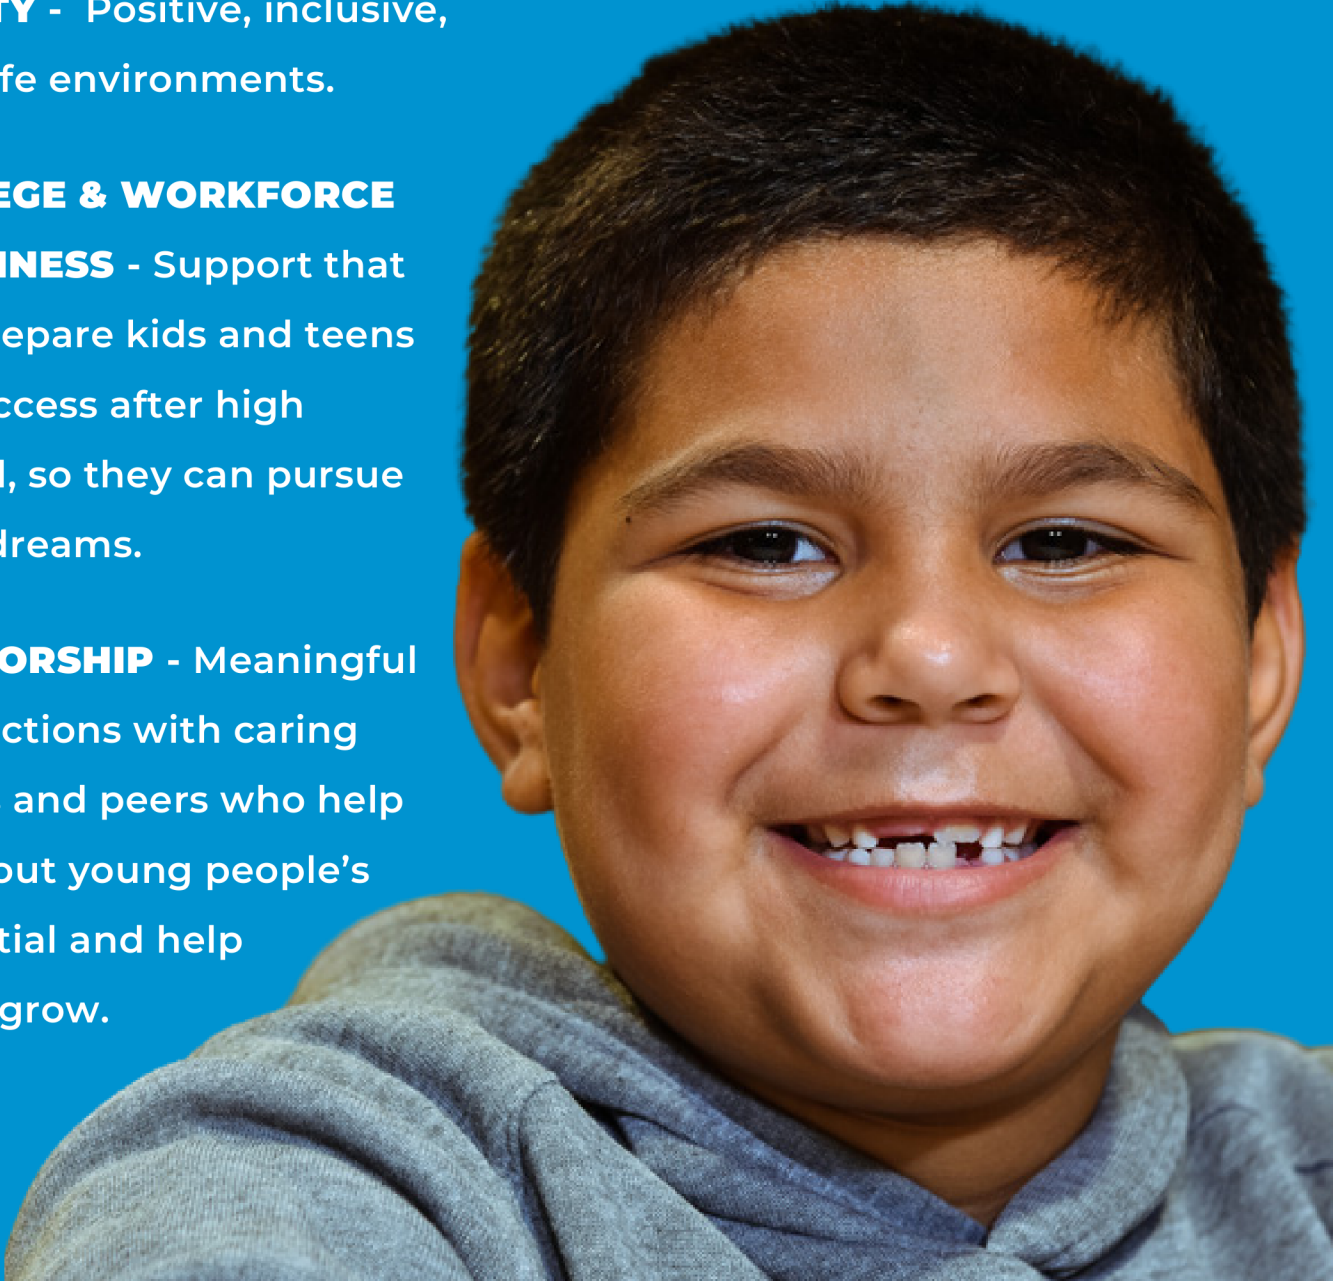

During the past year, youth and their families in Santa Clara County experienced many challenges:

Addressing the Community's Needs

Youth and their families face greater challenges and needs than ever before. Boys & Girls Clubs of Silicon Valley remains committed to empowering youth, addressing disparities, and expanding opportunities for all Club members. Our Club looks to deepen our impact on youth and the communities we serve through enhanced focus on:

- **SAFETY** - Positive, inclusive, and safe environments.
- **COLLEGE & WORKFORCE READINESS** - Support that will prepare kids and teens for success after high school, so they can pursue their dreams.
- **MENTORSHIP** - Meaningful connections with caring adults and peers who help draw out young people's potential and help them grow.

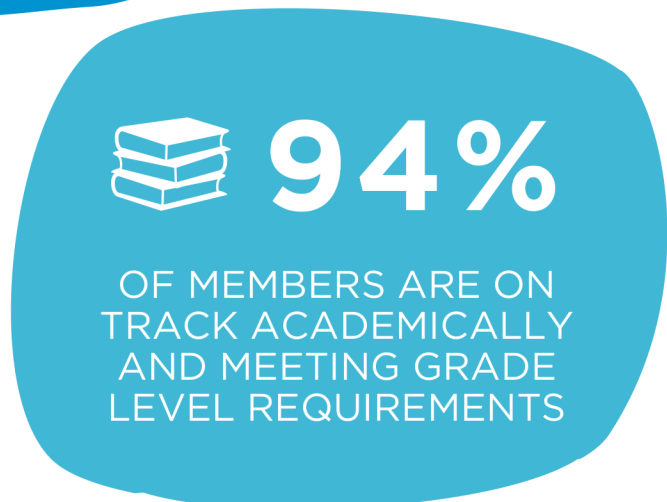

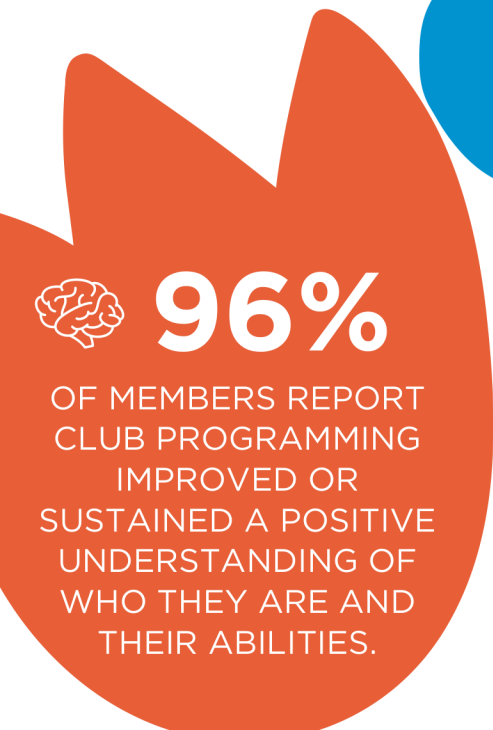

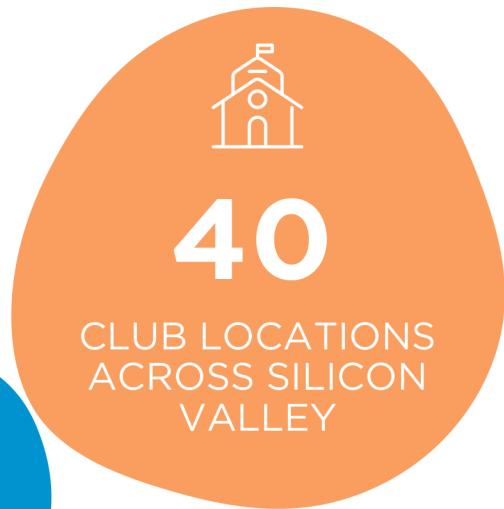

*2023 SANTA CLARA COUNTY CHILDRENS DATA BOOK,
** COUNTY OF SANTA CLARA OFFICE OF THE COUNTY EXECUTIVE

School-Year Programs

Clubs engage youth in mentoring relationships with caring adults and offer age-appropriate and diverse programs provided by trained youth development staff. Our school-year programs provide on and off-campus after-school enrichment services to students who attend our school partner sites in the cities of: San Jose, Morgan Hill, Hollister, Gilroy, Redwood City, Richmond, Concord, and Antioch.

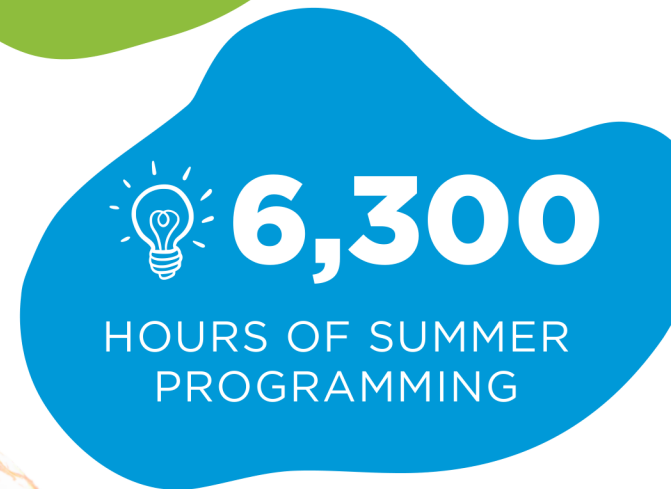

In response to community need, we increased our number of Club locations this year.

Empowering Learning Beyond the Classroom

2023 Summer Program

While school may be on break, the spirit of learning thrives at Boys & Girls Clubs. Club members embark on a journey of hands-on/minds-on learning that helps them learn, stay active, and have fun. Through engaging physical activities and academic enrichment, participants thrive in a positive and uplifting environment, setting the stage for their future success.

"They make you feel like family."
- Summer Parent Survey, 2023

Teen Takeover

Beyond any single program, BGCSV has evolved into a dynamic force in youth development. We are deploying an unprecedented number of full-time staff members working alongside college and career counselors on-site in underserved high schools across the South Bay. **Our team is now serving an astounding 2,500+ teens** - a number that has increased dramatically in the last two years. Targeted programming is supported by peer mentoring and volunteers who draw out young people's inherent talents and abilities. Understanding the pivotal role of teen programming in achieving our mission, **BGCSV is committed to scaling and increasing support for teenagers** in their post-secondary journey.

College Bound

100% of eligible Club high schoolers graduated on time and are attending college.

College Readiness

The Club is committed to supporting students to and through college graduation. We offer innovative programs specially designed to provide caring, long-term, family-based college counseling that is attuned to the unique cultural characteristics of traditionally underserved and first-generation college students. Through our teen serving programs, we offer bilingual English/Spanish support, access to student and parent workshops, resources, networking opportunities, and peer mentoring.

Social Emotional Wellness & Service Learning

The Club has expanded teen-focused initiatives promoting mental health and positive peer relationships, ensuring teens develop into well-rounded and emotionally resilient individuals. Recognizing the importance of social and emotional well-being, we are dedicated to strengthening programs that support teens in navigating the challenges of adolescence. Our teen programs also empower youth to make meaningful contributions to their communities while fostering a lifelong commitment to service.

Workforce Development

Workforce development is key to building tomorrow's leaders, innovators, and problem-solvers. Our focus is to provide career exploration opportunities for youth, facilitate internships/externships, and connect youth with industry professionals.

We are determined to offer youth more career exploration opportunities in:

- o S.T.E.M
- o Healthcare
- o High-Skilled Trades

Empowering Tomorrow's Leaders, Today

Boys & Girls Clubs of Silicon Valley receives \$1.4 million contribution from ASML

The Club could not be more thankful to announce ASML's historic contribution to empowering youth. ASML's generosity will help support STEM, summer enrichment, and

teen programming. With this transformative support, we can empower and inspire a new generation of leaders, innovators, and dreamers.

ASML	DATE <u>11/28/2023</u>

<i>One Million Four Hundred Thousand</i>	DOLLARS
MEMO <i>Empowering Tomorrow's Leaders Today</i>	

2023 Youth Of The Year: Matthew's Story

“Jane Goodall once said, “What you do makes a difference, and you have to decide what kind of difference you want to make.” Boys & Girls Club has made a tremendous difference in my life. It has provided me with a safe place to learn, adult staff that care about my future, and programs that teach me about being a productive, responsible and caring leader.

One of my favorite Club programs is Leaders In Training. As a Leader In Training, I get to work with youth members as a near-peer mentor and program aide under the supervision of an adult staff. In this role, I strive to make a difference in the youth our organization serves by offering guidance and mentorship, while also supporting their learning and encouraging them to see a future in science and technology careers. In a very real way, what I'm doing for younger youth is what the Club did for me.”

Now a high school senior, Matthew has been accepted to Cornell University where he plans to major in biology followed by a medical degree in the hopes of pursuing a career as a pediatrician.

I cannot thank Boys & Girls Clubs enough for shaping my passions in life and impacting my future for the better.

- Matthew, Youth of the Year, 2023

International Day Of The Girl

International Day of the Girl (IDG) is a global observance dedicated to championing the rights and empowerment of girls everywhere. This year, over 70 female community leaders joined the young girls of Boys & Girls Clubs of Silicon Valley for 1:1 mentorship to celebrate International Day Of The Girl. Participants hosted a college and career panel and helped the young women envision their future by assisting them in making personalized vision boards.

“When I was younger, I wanted to be a scientist - but I had stopped that dream because I just hadn't seen a lot of women scientists. But today, I met a lot of amazing women with amazing careers. I met engineers, I met lawyers - I met scientists! I really needed this.”

First-year Club girl, IDG 2023

The 2023 Youth Of The Year Gala raised over \$440,000 to support local youth on their path towards a great future.

Thank You To
Our Top Sponsors

Polly Hillis Scalora

Youth of the Year is a four-month-long leadership development program that celebrates the remarkable lives of Boys & Girls Clubs of Silicon Valley members who have distinguished themselves through strength of character and academic success. Youth of the Year candidates will practice public speaking, essay writing, team building, and more throughout the program. At the annual Youth of the Year Gala, each finalist shares their story with the entire Boys & Girls Clubs of Silicon Valley community, and one youth is awarded the title of Citywide Youth of the Year. The Citywide Youth of the Year receives a college scholarship and the opportunity to advance to Boys & Girls Clubs' Northern California Youth of the Year competition.

GREAT FUTURES START WITH HER.

Thank You To Our Sponsors

50th Annual Golf Classic

Over 125 golfers enjoyed a beautiful day at Almaden Golf & Country Club while providing critical support to our summer program and making a positive impact on the lives of local kids in need – giving them a safe place to learn, stay active, and have fun.

Winterfest

California's Great America donated over 900 Winterfest tickets for kids and families from Boys & Girls Clubs of Silicon Valley, where our Youth of the Year, Matthew, and Jr. Youth of the Year, Salvador, were honored to light the park's 70ft Christmas tree. SunCom Mobile volunteers also partnered up for the event to provide a variety of activities for the kids including crafts and giveaways. We are grateful to California's Great America and volunteers from SunCom Mobile for their generosity and support of our kids & families.

1st Annual Joy Drive

Boys & Girls Clubs of Silicon Valley's first annual Joy Drive took place December 7, 2023, where hundreds of new, unwrapped gifts were donated to be distributed to Club youth. Thanks to the generosity of volunteers and donors, the Club was able to provide hundreds more youth in Santa Clara County the opportunity to experience a little holiday magic. Our Alviso, Levin, and Morgan Hill locations transformed into magical places for children to create beautiful gingerbread houses, make delicious cookies, and enjoy more festive activities.

Google provided hands-on learning experiences for clubhouse members across various locations during Computer Science Education week. Activities included exploring Hour of Code and Animate a Name programs through Google's CS First, along with hosting a career panel featuring Google employees to inspire and guide participants towards potential career paths in technology.

Thousands of middle and high-school Club members engaged in hands-on robotics activities using LEGO robotics and VEX kits provided by **High Tech High Heels**. Members tackled various design challenges, such as building mechanized catapults and coding autonomous robots using VEXcode IQ, a Scratch-based programming language.

For the second year, Club kids and their families had the opportunity to enjoy a \$500 holiday shopping spree at **Target**, generously provided by long time Club partner **ServiceNow**. Families shopped with the help of ServiceNow volunteers and Charvarius Ward and Ji' Ayir Brown of the **San Francisco 49ers**.

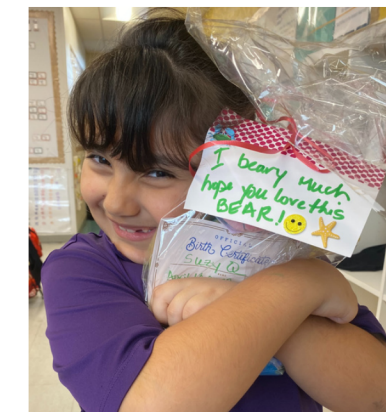

Silicon Valley Gives Back

Volunteering and outreach from valued community partners

Saved By Nature helped connect Club youth to the natural world with exciting outdoor recreational opportunities. Members attended guided hikes, catch and release fishing trips, and learned about the importance of stewardship and sustainability through environmental education.

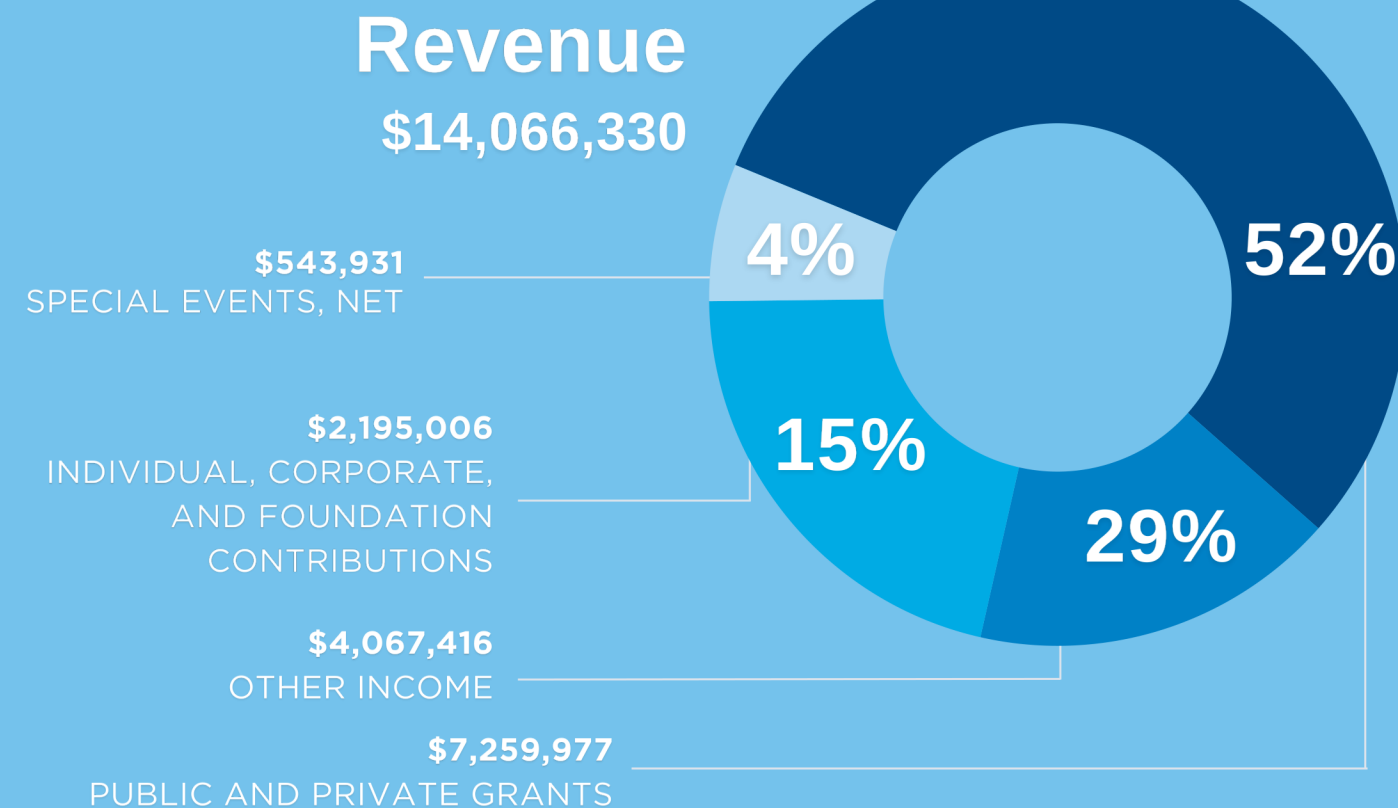

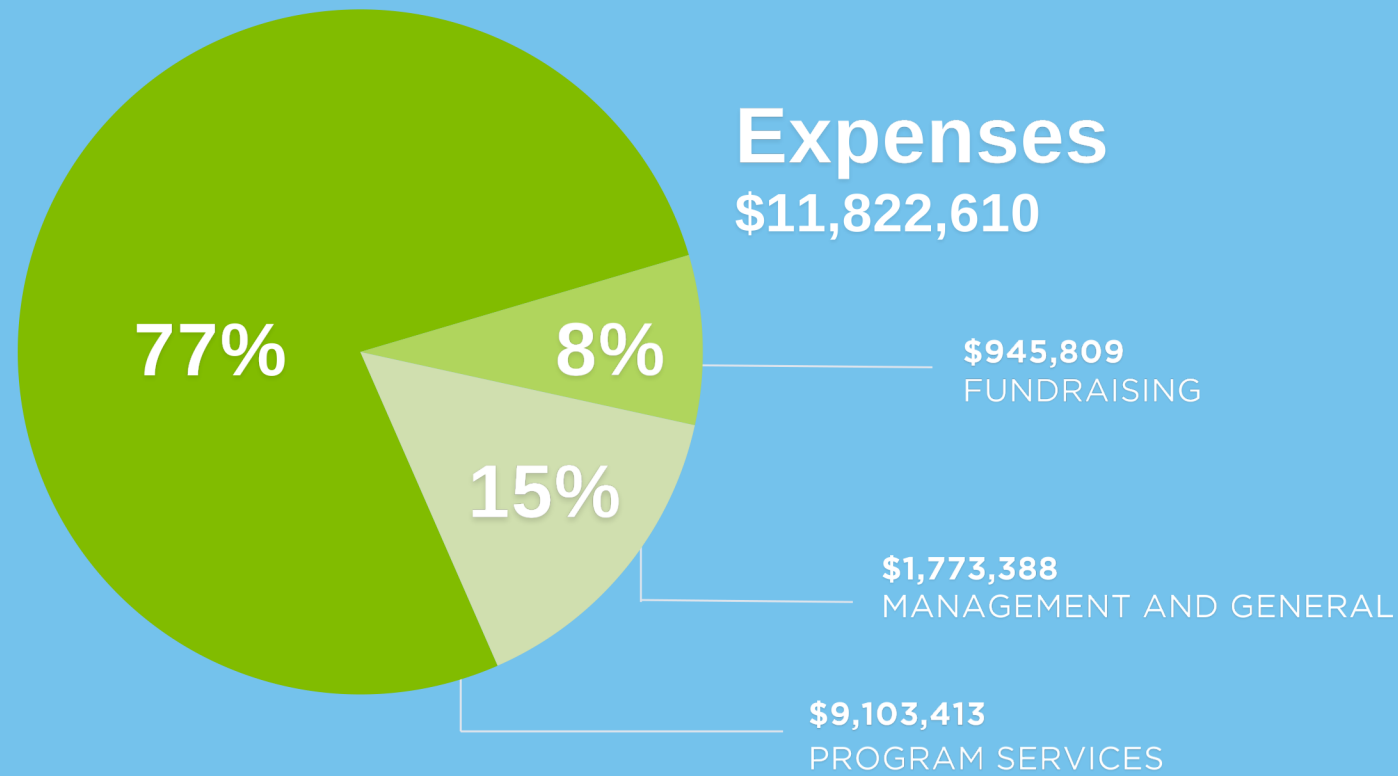

More than 100 **Analog Devices, INC** employees came together to build and donate 300+ Teddy Bears for Club members. Teddy Bears have been observed to ease loneliness, aid grief, and improve mental health.
