

My Goals Bingo

Today you're filling in a bingo card with your own goals—big or small, serious or silly. No two cards will look the same, and that is what makes this fun!

What You Will Need

- Your “My Goals Bingo” worksheet
- A poster board
- A pen, pencil, or markers
- Stickers to decorate
- Magazines for word cut-outs and printed images
- Scissors and a glue stick

The Steps

1. Sit down with your mentor and grab your Goal Bingo card.
2. Before you fill in a single square, say one goal out loud. Anything, big or small.
3. Read through the squares. Pick whichever ones speak to you first. You don't have to go in order.
4. Fill in each square with something real: a goal, a hope, a thing you want to try. A word or a short phrase is enough.
5. If you get stuck on a square, talk it through with your mentor. Saying it out loud first often helps you find the words!
6. Keep going until your card is full, or as full as you can get in the time you have.
7. Transfer your bingo card onto your poster board. Draw your squares, add words, pictures, stickers. Have fun with it and make it your own!
8. Share one square you're proudest of with your mentor.
9. Take it home. Tape it somewhere you'll see it, and check off squares as you make them real. Have fun making your bingo card come true!
